Honorary Member: R. IGLESIAS, Santiago, Chile

Publishing Office:
Journals Production Unit, Hennock Road, Marsh Barton, Exeter, Devon EX2 8RP (*Tel.* Exeter 74121; *Telex* 42749)
Advertising Office: Headington Hill Hall, Oxford OX3 0BW (*Tel.* Oxford 64881)

Subscription per annum (1980), *including postage and insurance. For libraries, university departments, government laboratories, industrial and other multiple reader institutions* U.S.$209.00 (*2-yr. subscription* $397.10). Specially reduced rates to individuals: *In the interests of maximizing the dissemination of the research results published in this important international journal, we have established a two-tier price structure. Any individual, whose institution takes out a library subscription, may purchase a second or additional subscription for personal use at the much reduced rate of* U.S.$45.00 *per annum. Subscription enquiries from customers in North America should be sent to: Pergamon Press Inc., Maxwell House, Fairview Park, Elmsford, NY* 10523, *U.S.A., and for the remainder of the world to: Pergamon Press Ltd., Headington Hill Hall, Oxford OX3 0BW, U.K. Payments to be made in advance.*

Microform Subscriptions and Back Issues: Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.

LIST OF CONTENTS

JULY

PLENARY LECTURES

Egon Diczfalusy — 3 — Gregory Pincus and steroidal contraception: a new departure in the history of mankind

H. J. van der Molen, W. M. O. van Beurden, M. A. Blankenstein, W. de Boer, B. A. Cooke, J. A. Grootegoed, F. H. A. Janszen, F. H. de Jong, E. Mulder and F. F. G. Rommerts — 13 — The testes: biochemical actions of trophic hormones and steroids on steroid production and spermatogenesis

Ronald Breslow — 19 — Chemical reactions of steroids which imitate the selectivity of enzymatic transformations

G. P. Talwar — 27 — Human chorionic gonadotrophin and ovarian and placental steroidogenesis

H. F. DeLuca — 35 — Recent advances in our understanding of the vitamin D endocrine system

SYMPOSIA

1. Advances in Steroid Chemistry

Ulrich Eder — 55 — Total synthesis of natural and non-natural steroid hormones

Michael J. Green, Joseph Berkenkopf, Xiomara Fernandez, Margaret Monahan, Ho-Jane Shue, Robert L. Tiberi and Barry N. Lutsky — 61 — Synthesis and structure–activity relationships in a novel series of topically active corticosteroids

S. Durani, A. K. Agarwal, R. Saxena, B. S. Setty, R. C. Gupta, P. L. Kole, S. Ray and Nitya Anand — 67 — *Seco*-oestradiols and some non-steroidal oestrogens: structural correlates of oestrogenic action

G. H. Phillipps, B. E. Ayres, E. J. Bailey, G. B. Ewan, B. E. Looker and P. J. May — 79 — Water-soluble steroidal anaesthetics

2. Steroid Antagonists

John W. Funder — 87 — Steroid antagonists: pharmacological effects, and physiological roles?

Jean-Pierre Raynaud, Claude Bonne, Marie-Madeleine Bouton, Lisette Lagace and Fernand Labrie — 93 — Action of a non-steroid anti-androgen, RU 23908, in peripheral and central tissues

R. K. Rastogi — 101 — A critical appraisal of the effects of the antiandrogen, cyproterone acetate, on the epididymis in connection with fertility control in the male

Angela M. H. Brodie, David A. Marsh, J. T. Wu and Harry J. Brodie — 107 — Aromatase inhibitors and their use in controlling oestrogen-dependent processes

3. Analytical Methods

P. E. Hall — 113 — Quality control of radioimmunoassay of hormones in reproductive physiology

Lothar Siekmann — 117 — Determination of steroid hormones by the use of isotope dilution–mass spectrometry: a definitive method in clinical chemistry

R. Vihko and G. L. Hammond — 125 — Automation of steroid radioimmunoassays for clinical and research purposes

J. Sjövall and M. Axelson — 129 — General and selective isolation procedures for GC/MS analysis of steroids in tissues and body fluids

4. New Methods of Steroid Analysis

S. Z. Cekan — 135 — On the assessment of validity of steroid radioimmunoassays

J. A. F. Tresguerres and J. Tamm — 143 — Urinary and plasma testosterone glucosiduronate measurement by a simple RIA method

Bauke K. van Weemen, Anneke M. G. Bosch, Edward C. Dawson and Anton H. W. M. Schuurs	147	Enzyme-immunoassay of steroids: possibilities and pitfalls
R. Knuppen, O. Haupt, W. Schramm and H.-O. Hoppen	153	Selected ion monitoring; a new approach for the specific determination of steroids in the lower picogram range
F. Kohen, Z. Hollander and R. C. Boguslaski	161	Non-radioisotopic homogeneous steroid immunoassays

5. Steroid Synthesis in Isolated Cells

J. B. G. Bell, P. J. Hyatt, J. G. McDougall, J. F. Tait, S. A. S. Tait and B. C. Williams	169	Properties of dispersed cells from rat adrenals
G. P. Vinson, B. J. Whitehouse, C. Goddard and C. P. Sibley	175	Steroid profiles formed by rat adrenocortical whole tissue and cell suspensions under different conditions of stimulation
E. Steinberger, R. K. Tcholakian and A. Steinberger	185	Steriodogenesis in testicular cells
M. L. Dufau, S. B. Cigorraga, A. J. Baukal, J. M. Bator, S. H. Sorrell, J. F. Neubauer and K. J. Catt	193	Steroid biosynthetic lesions in gonadotropin-desensitized Leydig cells

6. Steroid-enzyme Repression/Induction

Heinz Breuer, Govind S. Rao and Daisy Hamel-Jönsson	201	Induction of steroid glucuronyltransferase and repression of hydroxysteroid oxidoreductase: recent findings
W. Heyns, B. Peeters, J. Mous, W. Rombauts and P. De Moor	209	Androgen-dependent synthesis of a prostatic binding protein by rat prostate
F. Celotti, J. M. S. Farina, E. Santaniello, L. Martini and M. Motta	215	Effect of testosterone, its 5α-reduced metabolites and the corresponding propionates on testosterone metabolism. I—In the hypothalamus and in the anterior pituitary
F. Celotti, J. M. S. Farina, E. Santaniello, L. Martini and M. Motta	221	Effect of testosterone, its' 5α-reduced metabolites and the corresponding propionates on testosterone metabolism. II—In the ventral prostate and in seminal vesicles
Bun-ichi Tamaoki and Makoto Mori	227	Occurrence of steroidal allyl alcohols in normal mammary tissues *in vitro*, in relation to experimental mammary tumours
David L. Williams, Sho-Ya Wang and Francoise Capony	231	Multiple response patterns to oestrogenic stimulation in the avian liver

7. Steroid–Protein Interactions

E. A. Nunez, C. Benassayag, L. Savu, G. Vallette and J. Delorme	237	Oestrogen binding function of alpha$_1$-fetoprotein
Philip H. Petra	245	The serum sex steroid-binding protein. Purification, characterization and immunological properties of the human and rabbit proteins
Christine Mercier-Bodard, Jack-Michel Renoir and Etienne-Emile Baulieu	253	Further characterization and immunological studies of human sex steroid binding plasma protein
K. F. Stoa, N. Hekim, O. Dahl and P. Å. Høisæter	261	Binding of androgens and progestins in the human testis

8. Steroid Receptors: Biosynthesis, Biorhythms

C. Sumida and J. R. Pasqualini	267	Relationship between cytosol and nuclear oestrogen receptors and oestrogen concentrations in the fetal compartment of guinea-pig
Peter W. Jungblut, Alun Hughes, Jürgen Gaues, Erhard Kallweit, Itzhak Maschler, Fritz Parl, Walter Sierralta, Pablo I. Szendro and Rüdiger K. Wagner	273	Mechanisms involved in the regulation of steroid receptor levels
L. C. Krey, I. Lieberburg, E. Roy B. S. McEwen	279	Oestradiol plus receptor complexes in the brain and anterior pituitary gland: quantitation and neuroendocrine significance
V. C. Jordan and C. J. Dix	285	Effect of oestradiol benzoate, tamoxifen and monohydroxytramoxifen on immature rat uterine progesterone receptor synthesis and endometrial cell division
Avery A. Sandberg and Hannah E. Rosenthal	293	Steroid receptors in exocrine glands: the pancreas and prostate

9. Receptors: Purification and Properties

G. A. Puca, V. Sica, E. Nola and F. Bresciani	301	Purification and properties of native oestradiol receptor

J. Meiter, D. Seeley, M. G. Catelli, N. Binart, C. Geynet, R. Sutherland and E. E. Baulieu — 307 Chicken oviduct nuclear oestrogen receptors: aspects of steroid hormone action

Thomas S. Ruh, Lawrence J. Baudendistel, William F. Nicholson and Mary F. Ruh — 315 The effects of antioestrogens on the oestrogen receptor

Manjapra V. Govindan — 323 Purification of glucocorticoid receptors from rat liver cytosol. Preparation of antibodies against the major receptor proteins and application of immunological techniques to study activation and translocation

G. L. Greene, L. E. Closs, E. R. DeSombre and E. V. Jensen — 333 Antibodies to estrophilin: comparison between rabbit and goat antisera

10. Receptor–genome Interaction

Mels Sluyser and Ab Tulp — 343 Incorporation of steroid hormones in nuclei of different ploidy and different phases of the cell cycle

P. Davies, P. Thomas, M. G. Giles, Jariya Boonjawat and K. Griffiths — 351 Regulation of transcription of the prostate genome by androgens

J. R. Tata — 361 Control by oestrogen of reversible gene expression: the vitellogenin model

Thomas C. Spelsberg, John Knowler, Patricia Boyd, Cary Thrall and Ginger Martin-Dani — 373 Support for chromatin acidic proteins as acceptors for progesterone in the chick oviduct

Philip A. Bell and Neil M. Borthwick — 381 Regulation of transcription in rat thymus cells by glucocorticoids

Dušan Kanazir, Nevena Ribarac-Stepić, Divna Trajković, Gordana Blečić, Marija Radojšić, Radmila Metlaš, Dragana Stefanović, Matila Katan, Olga Perišić, Sabaha Popić and Radmila Djordjević-Marković — 389 The structure and regulatory function(s) of cortisol receptor—1: extragenomic effects dependent on the cortisol receptor activation

11. Receptors: Non-genome Aspects

Chunshing Chen, Richard A. Hiipakka and Shutsung Liao — 401 Prostate α-protein: subunit structure, polyamine binding, and inhibition of nuclear chromatin binding of androgen–receptor complex

Satish Batra — 407 Uterine progesterone after progesterone treatment: on the disappearance of cytosolic progesterone receptors

David Toft and Hideo Nishigori — 413 Stabilization of the avian progesterone receptor by inhibitors

A. Tchernitchin — 417 The role of eosinophil receptors in the non-genomic response to oestrogens in the uterus

12. Effects of Steroid Therapy

M. H. Briggs and Maxine Briggs — 425 Oral contraceptives and plasma protein metabolism

R. G. Crilly, D. H. Marshall and B. E. C. Nordin — 429 Metabolic effects of corticosteroid therapy in post-menopausal women

Roy Hertz — 435 The steroid-cancer hypothesis and recent pertinent epidemiological studies

13. Sustained Release Preparations for the Delivery of Fertility Regulating Agents

Egon Diczfalusy — 443 Improved long-acting fertility regulating agents: what are the problems?

Giuseppe Benagiano and Henry L. Gabelnick — 449 Biodegradable systems for the sustained release of fertility-regulating agents

K. Fotherby — 457 Pharmacokinetics and pharmacodynamics of sustained release systems

WHO Special Programme of Research Development and Research Training in Human Reproduction — 461 Intravaginal and intracervical devices for the delivery of fertility regulating agents

Bruce Pharriss and Constance Mitchell — 469 Values of steroidal intrauterine contraception for developing countries

14. Oral Contraceptives and Nutrition

Kosin Amatayakul — 475 The effects of Depo-Provera on carbohydrate, lipids and vitamin metabolism

U. M. Joshi — 483 The effects of oral contraceptives on carbohydrate, lipid, and protein metabolism in subjects with altered nutritional status and in association with lactation

Mahtab S. Bamji, K. Prema, B. A. Rama Lakshmi, F. Ahmed and C. M. Jacob	487	Oral contraceptive use and vitamin nutrition status of malnourished women—effects of continuous and intermittent vitamin supplements
		15. Steroids in Parturition and Pregnancy
A. P. F. Flint and A. P. Ricketts	493	Control of placental endocrine function; role of enzyme activation in the onset of labour
L. Cedard, M. Bedin, J. Leblond, G. Tanguy and M. Kaminski	501	Maternal plasma total oestriol and dehydroepiandrosterone sulfate loading test as indicators of feto-placental function or placental sulfatase deficiency
Beverley E. Pearson Murphy	509	Cortisol and cortisone in human fetal development
Marilyn B. Renfree and I. Ross Young	515	Steroids in pregnancy and parturition in the marsupial, *Macropus eugenii*
C. H. L. Shackleton, J. W. Honour and N. F. Taylor	523	Metabolism of fetal and neonatal adrenal steroids
		16. Perinatal Steroid Endocrinology
B. Goldman and S. Brown	531	Sex differences in serum LH and FSH patterns in hamsters exposed to short photoperiod
Shinji Hayashi	537	Influence of intrahypothalamic implants of antioestrogen or aromatase inhibitor on development of sterility following neonatal androgenization in female rats
Magueione G. Forest	543	Plasma androgens (testosterone and 4-androstenedione) and 17-hydroxyprogesterone in the neonatal, prepubertal and peripubertal periods in the human and the rat: differences between species
Robert B. Jaffe, Maria Seron-Ferré and Bryan F. Mitchell	549	Perinatal regulation of cortisol in the primate
F. Götz, G. Hinz, W. Rohde, F. Stahl and G. Dörner	557	Hormonal steroids, neurotransmitters and sexual differentiation of the brain
		17. Puberty
J. R. Ducharme, S. Catin-Savoie, Y. Taché, B. Bourel and R. Collu	563	Sequential hormonal changes and activation of the hypothalamic-pituitary-gonadal axis
A. R. Genazzani, C. Pintor, F. Facchinetti, P. Inaudi, D. Maci and R. Corda	571	Changes throughout puberty in adrenal secretion after ACTH
D. Gupta and M. Eichner	579	Interactions of gonadal steroids, gonadotropins and gonadotropin-releasing hormones in sexual maturation
V. B. Mahesh and S. J. Nazian	587	Role of sex steroids in the initiation of puberty
Benjamin Eckstein and Rivka Ravid	593	Changes in pathways of steroid production taking place in the rat ovary around the time of the first ovulation
		18. Steroids and Human Prostatic Tumours
R. F. Morfin, J.-F. Charles and H. H. Floch	599	$C_{19}O_2$-steroid transformations in the human normal, hyperplastic and cancerous prostate
R. A. Cowan, B. Cook, Sheila K. Cowan, J. K. Gant, D. A. N. Sirett and A. M. Wallace	609	Testosterone 5α-reductase and the accumulation of dihydrotestosterone in benign prostatic hyperplasia
M. Krieg, W. Bartsch, W. Janssen and K. D. Voigt	615	A comparative study of binding, metabolism and endogenous levels of androgens in normal, hyperplastic and carcinomatous human prostate
Ilse Lasnitzki	625	Metabolism and action of steroid hormones on human benign prostatic hyperplasia and prostatic carcinoma grown in organ culture
Jack Geller, Jerry Albert and Debra Loza	631	Steroid levels in cancer of the prostate—markers of tumour differentiation and adequacy of anti-androgen therapy
		19. Metabolic Defects
Julianne Imperato-McGinley, Ralph E. Peterson, Teofilo Gautier and Erasmo Sturla	637	Male pseudohermaphroditism secondary to 5α-reductase deficiency—a model for the role of androgens in both the development of the male phenotype and the evolution of a male gender identity
John T. France	647	Steroid sulphatase deficiency
Edward G. Biglieri	653	Mechanisms establishing the mineralocorticoid hormone patterns in the 17α-hydroxylase deficiency syndrome

20. Steroids in Male Reproduction

Mortimer B. Lipsett — 659 The role of testosterone and other hormones in regulation of LH

Ronald S. Swerdloff, L. Arthur Campfield, Anselmo Palacios and R. Dale McClure — 663 Suppression of human spermatogenesis by depot androgen: potential for male contraception

A. C. Kohane, J. C. Garberi, M. S. Cameo and J. A. Blaquier — 671 Quantitative determination of specific proteins in rat epididymis

Somnath Roy and Sudha Chatterjee — 675 Studies with cyproterone acetate for male contraception

Sumitra Nag and J. J. Ghosh — 681 Epididymal and testicular enzymes as monitors for assessment of male antifertility drugs

Utpala Chattopadhyay — 687 Immunological induction of aspermatogenesis

21. Ovum Maturation

Allen W. Schuetz — 695 Control mechanisms in oocyte growth and maturation

Bangalore I. Sundararaj, Shashi V. Goswami and Virenderjeet Lamba — 701 Some aspects of oocyte maturation in catfish

R. Ozon, R. Bellé, D. Huchon and O. Mulner — 709 Roles of cyclic AMP and calcium in maturation of *Xenopus laevis* oocytes

Yoshio Masui, Peter G. Meyerhof and David H. Ziegler — 715 Control of chromosome behavior during progesterone induced maturation of amphibian oocytes

22. Ovum Implantation

M. M. Singh and W. D. Booth — 723 Origin of oestrogen in preimplantation rabbit blastocysts

Jayasree Sengupta, S. K. Roy and S. K. Manchanda — 729 Hormonal control of implantation: a possible role of lysosmal function in the embryo–uterus interaction

R. C. Mallonee and J. M. Yochim — 746 The uterus during progestation: hormonal modulation of pyridine nucleotide activity in relation to decidual sensitivity

L. Schenkel-Hulliger, CH. Krähenbühl, P. K. Talwalker and P. Bischof — 757 Experimental models in the search for antigestagenic compounds with menses-inducing activity

Z. Dickmann — 771 Blastocyst oestrogen: an essential factor for the control of implantation

23. Steroidogenesis in Granulosa Cells and Corpus Luteum

K. P. McNatty, A. Makris, C. De Grazia, R. Osathanondh and K. J. Ryan — 775 The production of progesterone, androgens and oestrogens by human granulosa cells *in vitro* and *in vivo*

G. L. Kumari and C. P. Channing — 781 Intraovarian control of progesterone biosynthesis by granulosa cells and corpus luteum

Kurt Ahrén, Lars Hamberger, Torbjörn Hillensjö, Lars Nilsson and Knut Nordenström — 791 Control of steroidogenesis in the preovulatory rat follicle

Kenneth J. Ryan — 799 Granulosa–thecal cell interaction in ovarian steroidogenesis

24. Steroid Action in CNS and Anterior Pituitary—I

Walter E. Stumpf and Madhabananda Sar — 801 Steroid hormone target cells in the extrahypothalamic brain stem and cervical spinal cord: neuroendocrine significance

Brinda Umberkoman-Wilta and T. C. Anand Kumar — 809 Association of tritiated ovarian steroids with the rhesus monkey brain

S. Samperez and P. Jouan — 819 Androgen metabolism, androgen and oestrogen receptors in the male rat anterior pituitary

Jasna Kniewald, Pavao Mildner and Zlatko Kniewald — 833 Effects of s-triazine herbicides on hormone-receptor complex formation, 5α-reductase and 3α-hydroxysteroid dehydrogenase activity at the anterior pituitary level

25. Steroid Action in CNS and Anterior Pituitary—II

F. Ellendorff, N. Parvizi, F. Elsaesser, N. MacLeod and W. Reinhardt — 839 Functional and organizational aspects of gonadal steroids in the pig brain

Junzo Kato and Tsuneko Onouchi — 845 Nuclear progesterone receptors and characterization of cytosol receptors in the rat hypothalamus and anterior hypophysis

Mariarosa Zanisi and Luciano Martini — 855 Interaction of oestrogen and of physiological progesterone metabolites in the control of gonadotropin secretion

Harry J. Karavolas, Donald R. Hodges and Donald J. O'Brien — 863 *In vivo* uptake and metabolism of [^{3}H]-progesterone and [^{3}H]-5α-dihydroprogesterone by rat CNS and anterior pituitary: tissue concentration of progesterone itself or metabolites?

H. H. Feder, J. D. Blaustein and B. L. Nock — 873 Oestrogen–progestin regulation of female sexual behavior in guinea-pigs

26. Steroids and Aging

M. S. Kanungo and M. K. Thakur — 879 — Effects of oestradiol on covalent modifications of chromosomal proteins and transcription of chromatin of the brain of rats of various ages

Wen-Chang Chang and George S. Roth — 889 — Changes in the mechanisms of steroid action during aging

M. Serio, P. Gonnelli, D. Borrelli, A. Pampaloni, G. Fiorelli, E. Calabresi, G. Forti, M. Pazzagli, M. Mannelli, A. Baroni, P. Giannotti and G. Giusti — 893 — Human testicular secretion with increasing age

A. Vermeulen and L. Verdonck — 899 — Factors affecting sex hormone levels in postmenopausal women

M. J. Reed, J. D. Hutton, P. M. Baxendale, V. H. T. James, H. S. Jacobs and R. P. Fisher — 905 — The conversion of androstenedione to oestrone and production of oestrone in women with endometrial cancer

27. Anabolic Steroids

R. V. Brooks, G. Jeremiah, Wendy A. Webb and M. Wheeler — 913 — Detection of anabolic steroid administration to athletes

B. Hoffmann — 919 — Aspects on the formation and detection of tissue levels of anabolic steroids in domestic animals

V. A. Rogozkin — 923 — Anabolic steroid metabolism in skeletal muscle

R. J. Heitzman — 927 — The efficacy and mechanism of action of anabolic agents as growth promoters in farm animals

A. Viru and P. Kõrge — 931 — Role of anabolic steroids in the hormonal regulation of skeletal muscle adaptation

R. Hampl and L. Stárka — 933 — Practical aspects of screening of anabolic steroids in doping control with particular accent to nortestosterone radioimmunoassay using mixed antisera

28. Photoperiodic Control of Steroid Production and Action

Renato Massa, Dai T. Davies, Luciana Bottoni and Luciano Martini — 937 — Photoperiodic control of testosterone metabolism in the central and peripheral structures of avian species

Hans-Jörg Horst — 945 — Photoperiodic control of androgen metabolism and binding in androgen target organs of hamsters (*Phodopus sungorus*)

D. P. Cardinali, María I. Vacas, C. E. Valenti and C. Gonzalez Solveyra — 951 — Pineal gland and sympathetic cervical ganglia as sites for steroid regulation of photosensitive neuroendocrine pathways

29. Biological effects of Steroid Antibodies

R. J. Scaramuzzi — 957 — Antibodies to androgens, and ovulation in the ewe

Arpad I. Csapo and Bela Resch — 963 — Prevention of implantation by antiprogesterone

Doris Haack, Paul Vecsei, Klaus Lichtwald and Walter Vielhauer — 971 — Corticosteroid and corticosteroid metabolite levels in animals immunized against corticosteroids

30. Central Control of Steroid Production

Pushpa S. Kalra and Satya P. Kalra — 981 — Regulation of gonadal steroid rhythms in rats

Robert Collu, Yvette Taché and Jacques-R. Ducharme — 989 — Hormonal modification induced by chronic stress in rats

Masazumi Kawakami, Katsuharu Kubo, Tsuguo Uemura and Moriharu Nagase — 1001 — Evidence for the existence of extra-hypophyseal neural mechanisms controlling ovarian steroid secretion

F. Piva, J. Borrell, P. Limonta, G. Gavazzi and L. Martini — 1007 — Role of the amygdala and the *Organum vasculosum laminae terminalis* in the control of ovarian function in the female rat

Michel Ferin — 1015 — Central sites controlling pituitary secretion in the rhesus monkey

31. Steroids and Hypertension

Aldona Butkus, John P. Coghlan, Derek A. Denton, William F. Graham, Timothy J. Humphery, Bruce A. Scoggins and Judith A. Whitworth — 1021 — Adrenocortical steroid hormones in production of hypertension in sheep

Wojciech Nowaczynski, Paul Landais, Tadashi Murakami, Mark Nowaczynski, Donatien Mavoungou and Benny Vitullo — 1027 — Genetic aspects of plasma aldosterone binding globulins in families of patients with essential hypertension, including isolation of novel thermostable homologues from plasma and urine

R. Fraser, P. A. Mason, Julia C. Buckingham, R. D. Gordon, J. J. Morton, M. G. Nicholls, P. F. Semple and M. Tree — 1039 — The interaction of sodium and potassium status, of ACTH and of angiotensin 2 in the control of corticosteroid secretion

R. D. Brown, M. Wisgerhof, P. C. Carpenter, G. Brown, N.-S. Jiang, P. Kao and R. Hegstad 1043 Adrenal sensitivity to angiotensin II and undiscovered aldosterone stimulating factors in hypertension

32. Diagnostic Relevance of Steroid Assays

S. L. Jeffcoate 1051 Progress towards the wider use of better steroid immunoassays

R. E. Oakey 1057 Diagnostic relevance of oestrogen estimations in human pregnancy

AUGUST

John T. Woosley and Thomas G. Muldoon 1065 The thermolability of rat uterine cytosol estrogen receptors: basis for a novel cytosol exchange-denaturation assay

France T. Dionne, Renée L. Lesage, Jean Y. Dubé and Roland R. Tremblay 1073 Estrogen binding proteins in rat skeletal and perineal muscles: *in vitro* and *in vivo* studies

F. Kopp. P. M. Martin, P. H. Rolland and Marie-France Bertrand 1081 A preliminary report on the use of immunoperoxidases to study binding of estrogens in rat uteri

M. Toth and F. Hertelendy 1091 Androgen binding and androgen effect in the rat seminal vesicles: studies with testosterone and 19-nortestosterone

Helga Ahrens and Rameshwar K. Sharma 1099 Guanosine 3′:5′ monophosphate-dependent protein kinase from bovine adrenal cortex: partial purification and characterization

M. J. Reed and K. Fotherby 1107 Intestinal absorption of synthetic steroids

Enrica Bosisio and George S. Boyd 1113 *In vitro* and *in vivo* studies on two ^{75}Se labelled cholesterol analogues: 19-methyl-[^{75}Se]-selenocholesterol and 6-[^{75}Se]-methyl-selenomethyl-19-nor-cholest-5(10)-en-3β-ol

Harold G. Verhage, Maksood Akbar and Randal C. Jaffe 1121 Cytosol and nuclear progesterone receptor in cat uterus and oviduct

Mario E. Mirás and Robert W. Harrison 1129 Characteristics of glucocorticoid binding to mouse liver cytosol

Chantal Négrié, Nicole Triadou, Odette Michel, Jacob Bouhnik and Raymond Michel 1135 Oxidative phosphorylation reactions and cholesterol hydroxylation mechanisms in human term placental mitochondria

C. H. L. Shackleton, J. Honour, J. Winter and V. D. Bokkenheuser 1141 Urinary metabolites of 18-hydroxylated corticosteroids: microbial preparation of reference compounds

V. D. Bokkenheuser, J. Winter, J. W. Honour and C. H. L. Shackleton 1145 Reduction of aldosterone by anaerobic bacteria: origin of urinary 21-deoxy metabolites in man

James P. Preslock and Emil Steinberger 1151 Product-inhibition of testicular steroidogenic enzymes in the marmoset *Saguinus oedipus*

G. M. Sankolli, V. K. Naik, K. V. S. Prasad, Madhaven Nair and U. M. Joshi 1159 Influence of antisera on the estimations of norethisterone and levonorgestrel

Padmananda Samarajeewa, George Cooley and Alexander E. Kellie 1165 The radioimmunoassay of pregnanediol-3-glucuronide

N. A. C. Cressie and D. D. Keightley 1173 The underlying structure of the direct linear plot with application to the analysis of hormone–receptor interactions

A. B. Goodall, A. E. Rippon and V. H. T. James 1181 A simple non-chromatographic radioimmunoassay for plasma androstenedione

Ana M. Soto and Carlos Sonnenschein 1185 Estrogen receptor levels in estrogen sensitive cells in culture

Short Communication

N. Deshpande and Irene Mitchell 1191 The regulation of α-glycerolphosphate dehydrogenase (α-GPDH) activity by hydrocortisone in rat mammary glands

SEPTEMBER

Kenneth M. B. Chan, Stephanie Smythe and Shutsung Liao	1193	Androgen receptor binding and androgenicity of methylated 4-ene-3-ketosteroids having no 17-hydroxy group
Peter Doerr	1197	Relationship between receptor occupancy and stimulation of adenosin-3′,5′-monophosphate (cAMP) and progesterone production in isolated rat granulosa cells
Jean-Marie Gasc, Walter E. Stumpf and Madhabananda Sar	1201	Androgen target cells in the pituitary of the chick embryo
M. Härkönen, H. Adlercreutz, J. T. Dabek and J. L. H. O'Riordan	1205	*In vitro* oxidation of vitamin D metabolites by steroid dehydrogenases
W. Nienstedt and M.-P. Harri	1209	Intestinal absorption and metabolism of 17-hydroxyprogesterone, dexycorticosterone and cortisol in the dog
Tadashi Hayashi, Hans-Joachim Glotz, Toshihiro Aono and Keishi Matsumoto	1217	Influence of gestonorone caproate on rat prostate
Yoshiharu Kobayashi, Toshio Ogihara, Yayoi Nishitani, Fukuo Watanabe and Yuichi Kumahara	1223	Enzyme immunoassay of corticosterone
M. E. Tenneson, J. D. Baty, R. F. Bilton and A. N. Mason	1227	The degradation of hyodeoxycholic acid by *Pseudomonas* spp. N.C.I.B. 10590
Charles J. Grossman, Leon J. Sholiton and Paul Nathan	1233	Rat thymic estrogen receptor—I. Preparation, location and physiochemical properties
Charles J. Grossman, Leon J. Sholiton, Gordon C. Blaha and Paul Nathan	1241	Rat thymic estrogen receptor—II. Physiological properties
Giuseppe Barile, Silvia Giani, Antonio Montemurro, Daniela Mango and Paolo Scirpa	1247	Evidence for a testosterone binding macromolecule in human placental cytosol
B. Kreitmann, J. C. Faye, B. Derache and F. Bayard	1253	Unequal binding of estrogens in human endometrium
R. Ghraf, H.-J. Deutsch, E. R. Lax and H. Schriefers	1259	The action of estrogens on the androgen-dependent microsomal activity of 3α-hydroxysteroid dehydrogenase in male rat kidney
R. Ghraf, H.-J. Deutsch, E. R. Lax and H. Schriefers	1265	Androgen-priming of the hyperinductive estrogen effect on the cytoplasmic activity of 3α-hydroxysteroid dehydrogenase in rat kidney
Leif Aringer, Peter Eneroth and Lennart Nordström	1271	Side-chain cleavage of 4-cholesten-3-one, 5-cholesten-3α-ol, β-sitosterol, and related steroids in endocrine tissues from rat and man
Takara Yamamoto, Hideo Honjo, Takao Yamamoto, Kazuya Oshima, Kazuo Otsubo, Hiroji Okada and Kenyu Shibata	1287	The metabolic fate of estradiol benzoate in female dog
P. M. Martin, F. Kuttenn, H. Serment and P. Mauvais-Jarvis	1295	Progesterone receptors in breast fibroadenomas
V. Graef and S. W. Golf	1299	Circadian rhythm of hepatic steroid metabolizing enzyme activities in the rat
J. P. Feis, L. Dehennin, J. Grenier and R. Scholler	1303	Quantitative estimation of urinary estrogens during the menstrual cycle by gas liquid chromatography with a glass capillary column
Marta Tesone, Gregorio D. Chazenbalk, Gustavo Ballejos and Eduardo H. Charreau	1309	Estrogen receptor in rat pancreatic islets
M. Mondain-Monval, M. Bonnin, R. Scholler and R. Canivenc	1315	Androgens in peripheral blood of the red fox (*Vulpes vulpes* L.) during the reproductive season and the anoestrus
Anil Bhaskar, P. E. Schulze, B. Acksteiner and K. R. Laumas	1323	Quantitative analysis of norethindrone in milk using deuterated carrier and gas chromatography–mass spectrometry
Short Communications		
Lawrence P. Zyskowski, Samuel W. Cushman and Allan Munck	1329	Absence of an early effect of glucocorticoids on nonesterified fatty acid accumulation in isolated rat thymus cells
J. W. Moore	1329	The measurement of 5-androstene-3β, 17β-diol in plasma by radioimmunoassay
Forthcoming papers	i	
Announcement	ii	

OCTOBER

Don H. Nelson	v	Tribute to Dr Leo T. Samuels
Richard Hochberg, Lajos Bandy, Laura Ponticorvo, Margaret Welch and Seymour Lieberman	1333	Naturally occurring lipoidal derivatives of 3β-hydroxy-5-pregnen-20-one; 3β-17α-dihydroxy-5-pregnen-20-one and 3β-hydroxy-5-androsten-17-one
A. Aakvaag and E. Haug	1341	Metabolism of [^{3}H]-testosterone and [1,2-^{3}H]-dihydrotestosterone by prolactin secreting rat pituitary tumour cells in culture
E. P. Murono, R. Y. Kirdani and A. A. Sandberg	1347	Specific estradiol-17β binding component in adult rat kidney
Bunzo Sato, Robert A. Huseby, Keishi Matsumoto and Leo T. Samuels	1353	Molecular nature of interaction of steroids with biomembranes related to androgen biosynthesis
Peter F. Hall, C. Charponnier, M. Nakamura and G. Gabbiani	1361	The role of microfilaments in the response of Leydig cells to luteinizing hormone
P. Ofner, R. L. Vena, I. Leav and D. W. Hamilton	1367	Metabolism of C_{19}-radiosteroids by explants of canine prostate and epididymis with disposition as hydroxylated products: a possible mechanism for androgen inactivation
Don H. Nelson and Ann Ruhmann-Wennhold	1381	Effect of lipid extraction, adrenalectomy, and cortisol upon free radical formation by rat lung microsomes
Marc Maes, Charles Sultan, Nadia Zerhouni, Stephen W. Rothwell and Claude J. Migeon	1385	Role of testosterone binding to the androgen receptor in male sexual differentiation of patients with 5α-reductase deficiency
Z. Kraiem, S. Heuman and B. Lunenfeld	1391	Stimulation of ovarian aromatase activity is independent of postnatal exposure to gonadotrophins
Robert C. Pedersen and Alexander C. Brownie	1393	Failure of ACTH to mimic the stress-induced activation of rat adrenocortical cholesterol ester hydrolase *in vivo*
Robert A. Huseby and Oscar V. Dominquez	1401	Hypophyseal stimulation and biosynthesis of androgens produced by hyperplastic adrenals of castrate BALB/c mice
Shirley A. McCormack and Robert A. Huseby	1407	Plasma testosterone concentrations in normal and estrogen treated mice of three strains differing in susceptibility to induction of Leydig cell tumors
Charles D. West, James B. Atcheson, John B. Stanchfield, Marvin L. Rullison, Virginia J. Chavré and Frank H. Tyler	1413	Multiple or single 21-hydroxylases in congenital adrenal hyperplasia?
S. Fukuda, N. Terakawa, B. Sato, T. Imori and K. Matsumoto	1421	Hormonal regulation of activities of 17β-ol-dehydrogenases, aromatase and 4-ene-5α-reductase in immature rat ovaries
John A. Resko, Henry L. Stadelman and Reid L. Norman	1429	17β-Hydroxysteroid dehydrogenase activity in the pituitary gland and neural tissue of rhesus monkeys
Jiro Okumura, Yoshio Osawa, Rashad Y. Kirdani and Avery A. Sandberg	1435	Metabolism of androgens by the baboon kidney
Makoto Mori and Walter G. Wiest	1443	Purification of rat ovary 20α-hydroxysteroid dehydrogenase by affinity chromatography
Li Chen, Richard Reitherman and Boyd W. Harding	1451	Increased levels of a specific cyclic-AMP binding protein in ACTH stimulated bovine adrenal cortical cells
H. Mickan and J. Zander	1455	Pregnanolones and pregnenolone in human myometrium at term of pregnancy
H. Mickan and J. Zander	1461	Pregnanolones, pregnenolone and progesterone in the human feto-placental circulation at term of pregnancy
H. Mickan and J. Zander	1467	Pregnanolones, pregnenolone and progesterone in the human fetal tissues of early and midtrimester pregnancy
Richard J. Pietras and Clara M. Szego	1471	Estrogen receptors in uterine plasma membrane
Leonardo E. Bussmann and Ricardo P. Deis	1485	Studies concerning the hormonal induction of lactogenesis by prostaglandin $F_{2\alpha}$ in pregnant rats
Minoru Inaba and Kunie Kamata	1491	Effect of estradiol-17β and other steroids on noradrenaline and dopamine binding to synaptic membrane fragments of rat brain
E. Aguilar, A. Tejero, M. D. Vaticon, C. Fdez. Galaz and A. Oriol Bosch	1499	Effects of photoperiods on LH and prolactin (PRL) plasma levels in the male rat

Short Communication

A. Wayne Meikle, Gary V. Burton, John D. Stringham and Sen-Maw Fang — 1503 Content of 5α-reduced androgens in subcellular compartments of dog prostate

Forthcoming papers — I

Announcement — II

NOVEMBER/DECEMBER

Michal Lahav and Hans R. Lindner — 1507 Effects of cyclic AMP and of 2-mercapto-1-(β-4-pyridethyl)benzimidazole on composition of steroids secreted by a testicular tumour cell line

H.-J. Horst and L. Steinmüller — 1513 Steroid-biochemical investigation *in vivo* on the prostate-specific biological action of the synthetic androgen NB 06 in the rat

C. S. Dieringer, C. A. Lamartiniere and G. W. Lucier — 1519 Sex differences in pituitary-gonadal regulation of hepatic 5α-reductase and 16α-hydroxylase

Yasuhisa Ueda, Masanobu Honda and Michinobu Hatano — 1527 Response of adrenal steroids to angiotensin II in essential hypertension

S. Batra, S. Colleen, H. Grundsell and L. Håkansson — 1535 Progesterone and estradiol concentration in human kidney and renal cell carcinoma

Jaakko Hartiala, Pekka Uotila and Walter Nienstedt — 1539 Metabolism of progesterone in the isolated perfused rat lungs

Marie T. Pham-Huu-Trung, A. Bogyo and F. Girard — 1543 Isolated guinea-pig adrenal cells: effects of physiological concentrations of ACTH, angiotensin II and potassium chloride

A. I. Coffer and R. J. B. King — 1547 An artefact associated with elution of steroid affinity resins by high concentrations of ligands

Johan Montelius, Sven Carlsson, Jan Lindstedt, Dimitrios Galaris, Bo Höjeberg and Jan Rydström — 1551 Purification of adrenodoxin reductase from bovine adrenal cortex mitochondria by affinity chromatography. Properties of steroid hydroxylase systems reconstituted from reductase, adrenodoxin and membranous cytochrome P-450$_{11\beta}$

Hannelore Braunsberg and Kathryn D. Hammond — 1561 Methods of steroid receptor calculation: an interlaboratory study

C. M. Dickson, Milena Lesna and W. Taylor — 1567 The effect of anabolic androgens on gall-bladder bile acids and cholesterol in mice

Alicia M. Seldes and Eduardo G. Gros — 1573 Mass spectra of steroids having a lactone-side chain

Leon Milewich, Normand F. Gant, Barry E. Schwarz, Grace T. Chen and Paul C. McDonald — 1577 Initiation of human parturition—VII. Partial characterization of progesterone metabolizing enzymes of human amnion and chorion laeve

Paula Järvenpää, Theodore Fotsis and Herman Adlercreutz — 1583 Ion exchange purification of estrogens

B. Kreitmann and F. Bayard — 1589 Androgen interaction with the oestrogen receptor in human tissues

G. I. Ekeke, D. Exley and R. Abuknesha — 1597 Immunofluorimetric assay of oestradiol-17β

Steven B. Henderson, Leonard A. Ciaccio and Fred A. Kincl — 1601 Dynamics of estradiol and testosterone uptake in the brain of adult male rats

G. Pointis, M.-T. Latreille, T.-M. Mignot, Y. Janssens and L. Cedard — 1609 Regulation of testosterone synthesis in the fetal mouse testis

A. B. Goodall and V. H. T. James — 1613 Conjugated androstenedione in human urine

Pomila Singh, K. Murugesan, M. M. Kapur and K. R. Laumas — 1619 Androgen receptor in breast tissues—I. A new approach for the estimation of androgen receptors in the normal and cancerous mammary gland of women

S. Z. Cekan — 1629 On the assessment of validity of steroid radioimmunoassays

H. Rochefort, F. Capony and M. Garcia — 1635 Mechanism of action of antiestrogens and androgens on the estrogen receptor

Lawrence P. Zyskowski, Samuel W. Cushman and Allan Munck — 1639 Absence of an early effect of glucocorticoids on nonesterified fatty acid accumulation in isolated rat thymus cells

S. Schwarz — 1641 A simple computer program for Scatchard plot analysis of steroid receptors including non-specific binding correction on a low cost desk top calculator
